American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

☒ **Increase lending or reduce lending less than otherwise would have occurred.**

The Bank has increased its lending staff which over time will hopefully lead to increased lending volumes.

☒ **To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).**

Since obtaining CPP funds in 2009 and the subsequent transfer to CDCI in 2010, the Bank's commercial lease loan portfolio volumes have trended higher.

☒ **Increase securities purchased (ABS, MBS, etc.).**

The Bank's security portfolio has steadily increased since obtaining CPP funds in September 2009. Agency MBS and CMO's were among the securities purchased. The Bank has also purchased many local municipal bonds which supports our local communities.

☒ **Make other investments.**

In 2010, the Bank was able to invest in four CDs from CDFI qualified credit unions totaling \$992,000.

☐ **Increase reserves for non-performing assets.**

☒ **Reduce borrowings.**

The Bank was able to reduce its outstandings for brokered CDs and FHLB borrowings since obtaining the CPP/CDCI funds.
